My daughter struggles with chronic migraine that has caused her to miss quite a bit of school this year. We are new patients of Dr. Nguyen, and each time I contact Sherri she is wonderful. Sherri has gone above and beyond working with Dr. Nguyen to get my child's meds through pre-cert, make appointments for abortive injections, and following up with me on status. Sherri is quick to respond to my inquiries and has even come to my office to make sure I understand my child's treatment plan. My family has been patients at CGH for many years, and she is one of the best nurses we have had the pleasure to work with.
